EDUCATION

Florida International University

Bachelor of Arts in Computer Science

Certificate in Cybersecurity Intelligence & Information Policy

Miami, Florida

Graduated - August 2025

- **GPA:** 3.72 – Magna Cum Laude
- **Scholarships & Awards:** Dean's List: Fall 2023 – Summer 2025

Relevant Coursework: Data Structures & Algorithms, Software Engineering, Computer Architecture, Operating Systems, Discrete Mathematics & Calculus, Machine Learning, Object-Oriented Programming, Database Management

TECHNICAL SKILLS

Languages & Frameworks: Java, Python, JavaScript, SQL, C, Swift · Spring Boot, React (Redux), Node.js, Django, Flask, Xcode

Cloud & DevOps: AWS (EC2, Lambda, S3, SQS), LangGraph, CrewAI · Git/GitHub, Postman

Databases & Data Tools: PostgreSQL, MongoDB, MySQL · NumPy, Pandas, Plotly

Testing & Methodologies: JUnit, unittest, Jest · Unit/Integration Testing, Code Coverage · Agile (Scrum & Kanban)

TECHNICAL WORK EXPERIENCE

Technical Operations Assistant Manager

June 2022 – June 2025

JETSET Pilates

Miami, Florida

- Led a team in **resolving technical issues** and **optimizing internal systems**, achieving **100% resolution rate** and enhancing client onboarding.
- **Managed and improved** payment systems and business operations, **reducing processing time by 25%**.
- Applied **analytical thinking** and **problem-solving** to identify inefficiencies, implement effective solutions, and improve system reliability.

E-Commerce Web Developer

July 2018 – November 2020

Style Link Miami / Hannah Bella Collections / VSP Studios

Miami, Florida

- **Designed** responsive e-commerce websites using **HTML**, **CSS**, and **CMS** platforms, **optimizing layouts** and **enhancing site performance by 20%**.
- **Developed** and maintained **back-end** systems to ensure seamless functionality, including inventory management, bug resolution, and integrating **digital marketing strategies** that **boosted sales performance by 25%**.

ACADEMIC PROJECTS

Atmosphere Analyzer: Smart Data Visualization Tool | [Source Code](#) Python | AWS (Lambda, S3) | React | Django

- Solved environmental data delays by building a **serverless pipeline** with **AWS Lambda**, boosting efficiency by 35%
- Enabled **real-time insights** by integrating **AWS S3** with a **Django REST API** and **React** dashboard
- Used **unit testing** and **Agile** delivery to ensure accurate metric reporting and fast feature deployment

Micro-Investment Education Platform | [Source Code](#) React | Node.js | Express | MongoDB | Alpha Vantage API

- Addressed user confusion around market trends by integrating real-time financial data via **Alpha Vantage** and **News APIs**
- Improved transaction handling and user ranking accuracy through optimized **Express/MongoDB** architecture
- Delivered responsive dashboards and fault-tolerant backend in **Agile** sprints to support investment education

FraudWatch: Credit Card Fraud Detection System | [Source Code](#) Python | Flask | Pandas | scikit-learn | Plotly

- Tackled credit card fraud by training a **Random Forest model** with **92% accuracy** and reducing false positives
- Enabled **real-time fraud detection** through a **Flask API** and integrated **Plotly** visualizations
- Automated preprocessing and model validation to support scalable fraud classification pipelines

Supply Chain Visualizer: Real-Time Logistics | [Source Code](#) Java | Spring Boot | JavaScript | React | PostgreSQL

- Solved shipment tracking delays by engineering **REST APIs** and dashboards to monitor inventory and logistics
- Improved supply chain visibility using **React** with **Chart.js/Leaflet**, backed by **Spring Boot** and **PostgreSQL**
- Ensured accuracy through **JUnit-tested endpoints** and deployed the system on **AWS EC2/S3** for scalability
