PROFESSIONAL SUMMARY

Full-Stack Developer with a computer science degree, cybersecurity background, and production experience building RESTful APIs, real-time systems, and AI-integrated platforms across Java, Python, and TypeScript stacks. Delivers end-to-end solutions from backend architecture and schema design to frontend integration, cloud development, and machine learning features.

TECHNICAL SKILLS

Languages: Python, Java, JavaScript, TypeScript, SQL, C/C++

Frameworks & Libraries: React, Next.js, Node.js, Express, Django, Spring Boot, Flask, TensorFlow, OpenCV

Cloud & DevOps: AWS (EC2, Lambda, S3), Docker, Git/GitHub, Postman

Databases: PostgreSQL, MongoDB, MySQL, SQLite

EXPERIENCE

Technical Operations Associate

June 2022 – Present

JETSET Pilates

- Administered Mindbody platform for scheduling, payments, and account management as primary technical point of contact
- Diagnosed and resolved client-facing booking and payment failures through systematic troubleshooting
- Maintained internal system workflows and supported technical onboarding for new staff

Full-Stack Web Developer

January 2019 – November 2020

Style Link Miami

- Overhauled Shopify storefront by replacing the theme entirely, rebuilding navigation, collections, and product organization
- Maintained live site with ongoing frontend updates, product listings, and content changes
- Configured third-party Shopify apps and set up SEO metadata, including page titles and meta descriptions site-wide

Web Developer & Marketing Intern

July 2018 – December 2018

Hannah Bella Collections

- Built brand's first Shopify storefront from scratch, configuring checkout, payments, shipping, and store settings end-to-end
- Developed product catalog, navigation, and collections with custom HTML and CSS in mobile-friendly layouts
- Integrated third-party apps and set up SEO foundations to support the brand's initial e-commerce launch

ENGINEERING PROJECTS

Nexus: Full-Stack Supply Chain Visualizer [Source Code](#) | [Live Demo](#) **Java 17** | **Spring Boot 3.5** | **React** | **PostgreSQL** | **Docker**

- Designed 40+ REST endpoints across shipments, inventory, and analytics using Spring Boot, Spring Data JPA, and Flyway
- Configured Spring Security + JWT stateless authentication with CORS, centralized error handling, and request validation
- Automated 72 unit tests in GitHub Actions CI pipeline; Dockerized services with multi-stage builds deployed via Render IaC

JETSET: Franchise Intelligence Dashboard [Source Code](#) | [Live Demo](#) **TypeScript** | **Next.js** | **Prisma** | **SQLite** | **Gemini API**

- Built a Next.js/TypeScript platform with SSE live alerts, Gemini streaming AI, and FTS5 search across 69 locations
- Designed an 8-model Prisma schema with strict server/client boundary - all ORM queries server-side only
- Engineered a sigmoid churn model (AUC 0.841) scoring 15K+ members with feature importance and an ROI calculator

GenAI: Voice AI Mock Interviewer [Source Code](#) | [Live Demo](#) **TypeScript** | **React** | **Node.js** | **Groq** | **Whisper** | **Qwen 3.6**

- Orchestrated voice-to-AI pipeline using Groq Whisper Large v3 for transcription and Qwen 3.6 27B for response generation
- Migrated the full stack to strict TypeScript, backed by a 41-test Vitest/Supertest suite for GitHub Actions CI
- Built adaptive code-review and job-description-tailored prompting, personalizing question depth to role and submitted code

Atmosphere Analyzer: Real-Time Monitoring [Source Code](#) | [Live Demo](#) **Python** | **Django** | **React** | **Docker** | **WebSockets**

- Redesigned WebSocket fan-out around a leader-elected producer broadcasting via Redis, with HTTP polling failover
- Engineered a 4-layer data fallback across live APIs, EPA PM2.5-to-AQI conversion, and DB-persisted simulation
- Implemented z-score anomaly detection per city with real-time forecast panels, heatmaps, and CSV/PDF export

EDUCATION

Florida International University

Bachelor of Arts in Computer Science

Certificate in Cybersecurity Intelligence & Information Policy

Magna Cum Laude | Dean's List: Fall 2023 – Summer 2025 | Academic Achievement Award | GPA: 3.72

Miami, Florida

August 2025
