Maria Rodriguez

Miami, Florida | mrodr.contact@gmail.com | (xxx) xxx-xxxx
GitHub: */mariarodr1136* | **LinkedIn:** */in/mariarodr* | **Portfolio:** *mariarod.dev*

TECHNICAL SKILLS

Languages: Python, Java, JavaScript, TypeScript, SQL, C/C++
Frameworks & Libraries: React, Next.js, Node.js, Express, Spring Boot, Spring Security, Django, Flask, TensorFlow
Databases & Cloud: PostgreSQL, MongoDB, MySQL, SQLite, Prisma, AWS (EC2, Lambda, S3), Docker
Testing & Tools: GitHub Actions, pytest, Playwright, JUnit, Vitest, Git/GitHub, Postman

ENGINEERING PROJECTS

Nexus: Shipment & Inventory Tracking Platform *Source Code* | *Live Demo* **Java | Spring Boot | React | PostgreSQL | Docker**
- Built a shipment, inventory, and analytics tracker on 40+ Spring Boot REST endpoints with Spring Data JPA and Flyway
- Locked the API behind stateless JWT auth in Spring Security, with CORS, centralized error handling, and input validation
- Kept it release-ready with 90+ unit, API, and PostgreSQL tests in GitHub Actions CI; Dockerized deploys via Render IaC

Clay: Prompt-Built Dashboards *Source Code* | *Live Demo* **TypeScript | Next.js | tRPC | PostgreSQL | Drizzle | Claude API**
- Turned one prompt into a working dashboard with a streaming Claude tool-use agent, sandboxed to 15 allow-listed queries
- Made every edit revertible by writing an immutable version, across a 28-procedure tRPC API and 11-table Drizzle schema
- Shipped multi-sheet XLSX, CSV, and headless-Chrome PDF exports that re-run queries server-side for the full dataset

LeafMedic: Edge AI Plant Diagnosis *Source Code* | *Live Demo* **Python | TensorFlow Lite | ONNX Runtime Web | PyQt5**
- Diagnosed plant disease in 14ms with WebGPU on an 11MB quantized MobileNet across browser, desktop, and Raspberry Pi
- Rejected ambiguous and non-plant images with predictive-entropy and vegetation guards, mirrored in Python and JS
- Automated 146 tests across pytest and Playwright in a three-job GitHub Actions CI pipeline with lint, type-check, and E2E

JETSET Pilates: Franchise Retention Intelligence *Live Demo* **TypeScript | Next.js | Prisma | Turso | Gemini API**
- Scored a 15K+ member synthetic dataset for churn risk with a sigmoid model, feature importance, and an ROI calculator
- Alerted managers in real time over SSE, with streaming Gemini summaries and FTS5 search across 69 locations
- Migrated the data layer to libSQL/Turso, keeping all Prisma queries behind a server-only API dispatcher

EXPERIENCE

Software Developer & Operations Associate **June 2022 – Present**
JETSET Pilates
- Engineered a Next.js and TypeScript analytics dashboard to track studio churn and retention metrics
- Developed a centralized management portal unifying legacy data, training modules, and technical documentation
- Administered Mindbody integrations, systematically diagnosing and resolving client-facing booking and payment failures

AI Automation Engineer, Contract **June 2025 – August 2025**
Mastery Glass Design
- Shipped a Python/LangChain quoting assistant over historical pricing datasets, reducing quote generation time by 40%
- Built a vision-LLM pipeline parsing PDF specs into a manufacturing database, saving 15+ manual orders a week
- Automated CRM lead triage and follow-ups via n8n and OpenAI, boosting response times 3x

Full-Stack Developer: Web, E-Commerce, & Digital Platforms **January 2019 – November 2020**
Style Link Miami
- Re-engineered the storefront's core theme and UI navigation schemas, improving mobile conversion rates by 25%
- Restructured collection architecture and shipped continuous frontend releases that sharpened product discovery
- Managed daily digital commerce operations, deploying 50+ monthly live site changes, listings, and content updates

Web Developer & Digital Commerce Intern **July 2018 – December 2018**
Hannah Bella Collection
- Architected and launched the brand's first e-commerce platform from the ground up, establishing a retail channel
- Engineered custom HTML and CSS layouts for a responsive storefront, capturing 40% more mobile traffic
- Configured end-to-end e-commerce infrastructure, including payments, shipping, and checkout workflows

EDUCATION

Florida International University Miami, Florida
Bachelor of Arts in ***Computer Science*** August 2025
C*ertificate in* ***Cybersecurity Intelligence & Information Policy***
Magna Cum Laude | Dean's List: Fall 2023 – Summer 2025 | Academic Achievement Award | GPA: 3.72
